This Genealogy Chart of the Cresap Family has been prepared with a view to obtain additions and corrections, by Mrs. S. W. Holladay of San Francisco, and Lieut. James C. Cresap, U.S.N. of Annapolis, Md.

The blank spaces will indicate what is lacking; and it is hoped that these deficiencies may be supplied. Approximate dates are helpful.

Information is desired of the descendants of Elizabeth Cresap and Isaac Collier who were married about 1760. They were living in Ohio, Kentucky and Alabama in 1826.

Note. s.p. signifies without issue.

It is proposed to complete the "Tree", and publish it in book form, but it cannot be done satisfactorily until the descendants of the 5th generation are obtained. The 5th Generation is shown in the outside circle on the Chart, each member having a reference number. The descendants of some of these are already furnished, but many are lacking. All are requested to assist, to furnish names, dates, addresses, or historical notes.

Address all communications to either of the authors.

November 12. 1894.
